

# A Real Sanitation/Drying Solution

With **LESS** equipment, **LESS** maintenance, **LESS** energy, and **GREATER** sanitation control/comfort than ever before!

Since 1983

**custom fit for any situation!**

**Food Plant  
Use Certified**

**Air Movers Available**

COENCO® Air Movers™ are totally stainless with FDA, USDA approved Dupont Delrin® Blade Units. The all-stainless motors are thermally protected, custom made by Baldor to COENCO® specifications. The motors and computer controls carry a 5-year guarantee.

## THE COENCO DIFFERENCE

A Total Simple Solution  
For Your Sanitation, Energy  
and Maintenance costs with  
**REAL WORKING COMFORT!**

### The Coenco System® Will:

- ★ Create a dry food processing plant in 30-60 minutes, after sanitation is complete.
- ★ Greatly relieve or eliminate condensation, steam and heat in all processing areas during production.
- ★ **Lower overall humidity throughout the plant.**
- ★ Improve effectiveness of exhaust system.
- ★ **Eliminate moisture, condensation, frost & ice in coolers/freezers.**
- ★ **Reduce the overall amount of energy used throughout the plant.**
